Results –Fairlands Valley Challenge – Sunday, 20th July 2008

I have pleasure in enclosing the results of the 2008 Fairlands Valley Challenge. On behalf of 'Fairlands Valley Spartans' can I thank you for your support of this event.

We couldn't hold this event without a lot of help, so special thanks to everybody who assisted to make this a great occasion. A full list of helpers can be found at the back of the results.

This year we had some good running conditions, although the previous muggy weather did make for some overgrown parts of the course, including a few stingers! As per the last few years, I took a group round overnight, which really was pretty perfect running! The only problem we had, was a fallen tree, which I announced at each start.

Because of record numbers, I made some slight changes to the starting procedures, which probably brought the whole show forward a bit, but I think worked well. Looking at the results, a few entrants elevated their start times, but the great majority went off reasonably as requested. Hopefully this also meant that everyone went off at their designated time, making these results more accurate.

After 14 years we still have 6 who have completed each marathon, plus one other who has done all 14 at their chosen distance. Mike Newbitt remains the leader on countback with the best aggregate of the 7, averaging 4:47 for the 14 events. (4:46 this year) As per last year, the results include the times for the previous 9 years.

Times are blocked into each minute, and within these blocks the order is purely based on start number. If of course you spot a wrong result, then let me know. I suspect I may have some of the histories wrong, so do get back to me. While it is not a race, well done to all those at the front end of each event category.

Every year I say this will be my last, and every year the comments made and support I get from my friends persuades me to go on for another year, not forgetting the record entry for the 6th year in a row! There had been doubt about this location being available in 2008, but this threat seems to have gone away. If I were a betting man I would say that the 15th edition will take place on Sunday, 19th July 2009. For those on email, I will send out an entry form once things are in place.

We are not your typical marathon, but other events of similar comparison have been praised by Runners World, so if you think this event is up there, please let them know. That said, we actually went over our entry limit this year, so I guess I don't want too many more entering.

Hope to see you all next year!

Yours sincerely

Please Note: Photos of the event can be viewed and purchased at www.pulsephotography.net
